

Aspire integrated telematics

POWERED BY AZUGA

Easily gather the information you need to reduce risk, optimize operations, and make better decisions.

With integrated telematics, you can easily gather accurate data that simplifies your job and equips you to make better decisions.

Even better, this integration allows you to store and access key GPS insights within the Aspire platform, without switching between systems.

Leverage data to improve safety and reduce risk.

Identify and address poor driving behaviors by setting up notifications for safety concerns like hard braking, sudden acceleration, or speeding; by running reports on specific areas of concern to aid coaching conversations; or by simply viewing alerts, dashcam footage, and breadcrumb data right from the schedule board in Aspire.

In-cab safety alerts, integrated dashcam monitoring, and driver-specific training videos and content help improve driver safety. And the data you collect can be shared with your insurance provider, potentially resulting in discounted premiums.

Empower and reward your best drivers.

Tracking driver safety scores and comparative rankings allows you to recognize and reward your safest drivers while motivating others to improve their skills. Better yet, you'll lose less time and revenue to unsafe driving.

Gamification and social sharing options promote friendly competition that encourages improvement, and rewards earned through safe driving practices are easily redeemed for popular options within the app.

Keep crews accountable and your customers happy.

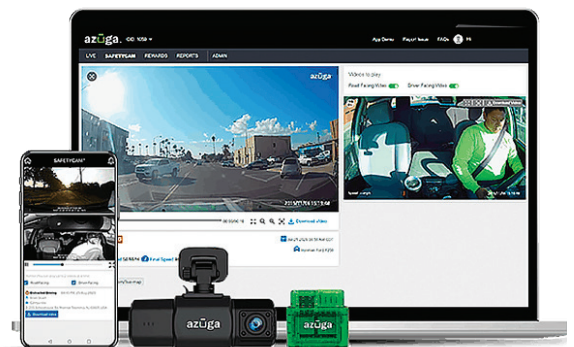

Having the ability to track your vehicles in real time helps you keep an eye out for issues that affect your customers.

Tracking location, stops, idle time, driving behaviors, and more allows you to curb wasteful habits, monitor assets, and increase efficiency to keep costs in check. Custom geofences helps ensure your crews—and your scheduled jobs—stay on track while providing insight into project scopes and estimated vs. actual labor hours to help you bid future work more accurately.

Simplify maintenance tracking and reduce downtime.

Stay ahead of the curve with vehicle diagnostics monitoring and preventative maintenance scheduling. Analytics on vehicle diagnostics, fuel efficiency and consumption, hours of use, and more help ensure your vehicles and equipment are properly maintained before it's too late. With scheduled maintenance and vehicle alerts, service can be performed proactively to help you avoid unforeseen repair costs and reduce unproductive downtime.

REAL-TIME ALERTS

Ensure safety and productivity.

- Speeding
- Hard braking
- Stop time and idle time
- Unauthorized vehicle usage
- Low fuel and low battery
- Sudden acceleration
- Check engine light
- Alerts shown on portal and emailed

DRIVER BEHAVIOR & SAFETY

Reinforce a culture of safety.

- Driver scores (portal, mobile app)
- Driver rewards (portal, mobile app)
- Harsh braking/hard-core breaking
- Speeding and sudden acceleration
- Hard cornering
- Seatbelt-usage compliance**
- Excessive idling
- In-cab alerts for safety events

POWERFUL REPORTING

Effectively manage your fleet.

- Speeding and fuel usage
- Activity summary and trip logs
- Stop reports and idling
- Breadcrumb and 'Who was where'
- Geofence entry/exit and landmarks
- Driver scores and rewards
- 19 pre-built options and custom reports
- Automated report delivery

** Requires add-on or services from Azuga Fleet engineering or data sciences teams*

*** Ask Azuga Fleet for specific makes/models*

FLEET MANAGEMENT

Optimize fleet and field operations.

- Default 1-minute GPS ping rate
- Real-time vehicle location/status
- Fleet performance dashboard
- Fuel usage and fuel card integration*
- Vehicle history trails
- Occupant recognition*
- Trip tagging and miles per state
- Find closest driver
- Geofences/landmarks with alerts

VEHICLE HEALTH

Simplify maintenance and service.

- Engine diagnostic reports (DTC codes)
- Vehicle service entries*
- Maintenance history*
- Preventative maintenance scheduling with alerts*

AZUGA SUPPORT

Deploy smoothly and get running successfully.

- Onboarding and account configuration
- Web-based training
- Toll-free customer support
- Online support and knowledge base
- Data storage
- Custom API integration*
- Advanced custom analytics*
- Lifetime warranty on Azuga Fleet device

ADD-ON FEATURES

Boost data and control.

- Posted speed limits and reports
- Fleet maintenance module
- FuelSaver™ alerts to nearest, cheapest fuel
- High-frequency tracking at 30-second intervals
- Upgrade to full Azuga Fleet Mobile: Distracted driving prevention, messaging, utilities, & more
- Bluetooth beacon occupant recognition
- Cross-border roaming in the US, Canada, Mexico
